

Testimonial

I advertised in the InfoTel directory and not the other book. This was my first year in business and I am happy to report, I received several new jobs from your directory. I even received a few additional jobs by referral. I also got jobs from your online directory at www.infotel.ca. Although I have no website, customers contacted me directly through the online email link you provided.

Bringing buyers and sellers together anytime, anywhere.

Dear Doug,

Last year you helped design an effective business card size ad in the Kamloops InfoTel Directory. I advertised in the InfoTel directory and not the other book.

This was my first year in business and I am happy to report, I received several new jobs from your directory. I even received a few additional jobs by referral. I also got jobs from your online directory at www.infotel.ca. Although I have no website, customers contacted me directly through the online email link you provided.

I am happy to advertise in your directory again this year and will continue to utilize the InfoTel directory to help grow my business.

Thanks,

Mike McLean
