

Testimonial

This was our first year advertising in the Info-Tel directory and in fact it is the only place we advertise at all. I am pleased to let you know that we have received calls from your book, but more importantly we have booked jobs and added revenue we would have never had if we were not in your book. As a result we have extended our advertising into a few other areas of the book ...

Bringing buyers
and sellers together
anytime, anywhere.

TRIPLE B WELDING & MANUFACTURING

August 4th, 2010

Brad Jespersen,

I am writing this letter to inform you on how happy we are with the results from the Info-Tel Directory.

This was our first year advertising in the Info-Tel directory and in fact it is the only place we advertise at all. I am pleased to let you know that we have received calls from your book, but more importantly we have booked jobs and added revenue we would have never had if we were not in your book. As a result we have extended our advertising into a few other areas of the book to generate more revenue to make sure we are found by our referral and recommended customers.

We look forward to our next year in business and would recommend Info-Tel to any business.

Sincerely,

Inez Barrett
Owner
