

Testimonial

A while back I did a few jobs that were on the same block. As I was finishing up with the third customer, I asked how did she find me? I was thinking it was maybe a neighbour or maybe even that she saw my truck in the area, as it is big, fully wrapped, and hard to miss. The client replied, "I found you in InfoTel." I have to be honest, if I didn't ask the question, I would of thought for sure that was a referral.

Attention: Rick LeBlanc,

We advertise in all of your Okanagan books and as a business owner it is nice to get feedback as to whether our advertising is effective.
