November 5, 2010

To: Info-tel,

I have been advertising with Infotel for many years. Four years ago my rep, Steve suggested that I increase the size of my ad to a TQCC (Dollar Bill Size) for positioning and I agreed. At that time I decided to start asking everyone that called which book they got my number from, (I did this for two years) I only heard "the Telus book" a few times but the consistent response was "the Info-Tel Book".

With such an overwhelming response for info-Tel, and the fact that I am covered in both the South Okanagan and The Penticton areas with just one book, I decided to drop both of the Telus books and increase my ad with Info-Tel to a Quarter Page. It has now been a couple of years since dropping out of the Telus books and my business is still thriving. I am enjoying saving all that money.

Just thought you might want to know.

Sincerely,

John P Menard
