In the past two years that I have been advertising with InfoTel I have had numerous new clients come from my ad. Generating new business that otherwise would not have called me, and in fact those new clients referred to me their friends as well.

InfoTel and word of mouth is all I do for advertising and both together keep my business going strong every year.

Bringing buyers and sellers together
anytime, anywhere.

Dear Brad,

Being that my business is all word of mouth, my InfoTel ad works hand in hand making sure that referrals and new clients can easily find me, 365 days a year.
