February 3rd, 2011

Attention: Rick Le Blanc,

This will be the third year that I have been advertising in the InfoTel book. I have been very pleased with the business that I receive out of InfoTel. I know that I have for sure received a job out of your yellow pages that was worth tens of thousands of profit dollars to me.

I continue to receive calls that result in jobs and that is one of the main reasons my business is still thriving in a down economy. Thank you for convincing me to place an ad in your book, it's made a big difference in my bottom line.
