It was our first year in business. We had a great year and part of that success came from your book, as InfoTel is the only phone book I advertise in. One of the ways that I know that I receive calls from your book is that I have a picture of myself in the ad and customers have made mention of that. I really appreciate the personal service the InfoTel provides and look forward in growing our business through your publication in the years to come.

To Eddie,

Just a quick note to let you know how happy I am with the InfoTel Book last year. It was our first year in business. We had a great year and part of that success came from your book, as InfoTel is the only phone book I advertise in.

One of the ways that I know that I receive calls from your book is that I have a picture of myself in the ad and customers have made mention of that.

I really appreciate the personal service the InfoTel provides and look forward in growing our business through your publication in the years to come.
